

# **Course Syllabus**

1	Course title	Principles of Statistics					
2	Course number	1607150					
3	Credit hours	3					
0	Contact hours (theory, practical)	40					
4	Prerequisites/corequisites	None					
5	Program title	BA Business Economics					
6	Program code	07					
7	Awarding institution						
8	School	School of Business					
9	Department	Business Economics					
10	Course level	1 <sup>st</sup> year					
11	Year of study and semester (s)	2023/2024 Fall					
12	Other department (s) involved in teaching the course						
13	Main teaching language	English					
14	Delivery method	□xFace to face learning □Blended □Fully online					
15	Online platforms(s)	Image: Skype <td< th=""></td<>					
16	Issuing/Revision Date	7-10-2023					
17 Co	urse Coordinator:						

Name:	Dr Yaseen Altarawneh	Contact hours: 10:30-11:30 Sun, Tue & Thur
Office num	nber:	Phone number:

#### **19 Course Description:**

The course provides an introduction to the principles of statistics, its development, statistical data, and how to collect and summarize data with frequency tables and display them graphically and geometrically. It also includes descriptive statistical measures, which are Central tendency measures; mean, median and mode, dispersion measures; both absolute and proportional measures, skewness, and kurtosis. The course also covers the correlation and simple regression. Moreover, it covers the definitions and basic laws of probability and their applications in Bayesian theory, decision trees, and decision making in Risk conditions. Also, the course study the statistical distributions such as the binomial distribution, the Poisson distribution, the normal distribution, and their applications.

20 Course aims and outcomes:

## A- Aims:

The course aims to provide students with a comprehensive understanding of the principles of statistics and to provide the student with the skills of data handling and the ability to choose appropriate statistical methods to describe data and analyze the results.

B- Students Learning Outcomes (SLOs):

Upon successful completion of this course, students will be able to:

	PLO1	PLO2	PLO3	PLO4
PLOs SLOs of the course	Explain the core economic terms, concepts, and theories, and the main foundations of microeconomi c and macroeconomi c disciplines and illustrate them with examples	Utilize critical thinking and problem solving to analyze an economic problem and draw correct inferences using quantitative analysis based on the statistical and econometric tools.	Employ the "economic way of thinking" through discussing the application of marginal analysis and explaining the use of benefit/cost analysis.	Evaluate theory and critique research within the discipline, and conduct an economic modeling for an economic phenomenon.
1- Know and understand the importance of statistics in doing practical economic and business research.	X			
2- Knowing the types of probability and non- probability samples and methods for drawing them.	Х			
3- How to determine the quality of data and how to deal with it.		Х		
4- How to choose appropriate methods to describe data.	Х	Х	Х	Х
5- Analytical and thinking skills and the ability to interpret results.	X	X	X	X

#### 22 Evaluation Methods:

10

Opportunities to demonstrate achievement of the SLOs are provided through the following assessment methods and requirements:

Evaluation Activity	Mark	Topic(s)	SLOs	Period (Week)	Platform
Midterm	30	Weeks 1-8	1&2&3&4&5	Week 8	Computer- Based Exam
Quiz	15	Weeks 1-4	1&2&3&4&5	Week 5	Computer- Based Exam
participation	5	General	1&2&3&4&5		
Final Exam	50	All Topics	1&2&3&4&5	Week 16	Computer- Based Exam

#### **23 Course Requirements**

(e.g: students should have a computer, internet connection, webcam, account on a specific software/platform...etc):

#### 24 Course Policies:

A- Attendance policies: As per the University Rules and Regulations

B- Absences from exams and submitting assignments on time: As per the University Rules and Regulations

C- Health and safety procedures: As per the University Rules and Regulations

D- Honesty policy regarding cheating, plagiarism, misbehavior: As per the University Rules and Regulations

مـركـز الاعتماد وضمان الجودة

E- Grading policy: As per the University Regulations

F- Available university services that support achievement in the course:
