

Call for Papers

The First Conference on: Finance, Economics, and Financial Technology (FEFT) July 6th & 7th, 2022, University of Jordan, Amman, Jordan Organized by the University of Jordan - School of Business

FEFT 2022

The University of Jordan, School of Business and Institute of Banking studies are delighted to host the First Conference on Finance, Economics, and Financial Technology (FEFT). The conference will take place on July 6th and 7th 2022, in the University of Jordan and Institute of Banking Studies. The conference has formed a strategic partnership with International Review of Financial Analysis (IRFA), International Review of Economics and Finance (IREF), and Finance Research Letters (FRL).

Keynote Speakers:

Professor Andrew Urquhart
(University of Reading, U.K.)

Dr Hossein Jahanshahloo
(University of Cardiff, U.K.)

Opening Session Speech

We are delighted to announce the opening speech will be given by **H.E. Dr. Adel Al-Sharkas** governor of the Central Bank of Jordan.

Special Issue:

A selection of conference papers will be invited for an expedited review in the International Review of Financial Analysis (IRFA), International Review of Economics and Finance (IREF), and Finance Research Letters (FRL). Further information about the submission process will be shared during the conference.

Paper Development Workshop and Meet the Editors Session

Professor Brian Lucey
Trinity College Dublin
Editor IRFA & IREF

Professor Arman Eshraghi
University of Cardiff
Editor IREF

Professor Samuel Vigne
Luiss Business School
Editor FRL

Conference participants can attend the Paper Development Workshop run by Professor Lucey, Professor Eshraghi, and Professor Vigne. After the workshop there will be “Meet the Editors” panel discussion on publishing in high quality peer reviewed journals with **Professor Lucey**, **Professor Eshraghi**, and **Professor Vigne** and will be hosted by **Professor Urquhart**.

The Data, Transparency, and Future of Blockchain Research Workshop

One of the greatest features of blockchains is the transparency they bring. However, despite this feature, the large collections of blockchain data are highly unexplored and underutilized. In this workshop, Dr Jahanshahloo, the creator of Cardiff University Bitcoin Database (CUBiD), will explore the applications of blockchain data and how it can be exploited by academics, financial authorities, regulatory bodies, and practitioners. Based on his own experience in blockchain research, Dr Jahanshahloo will share his views on the prospects of future research as well as the benefits analysis of blockchain data can deliver in different fields.

Conference Theme:

The conference will provide you with an opportunity to get acquainted with the latest thinking on Finance, Economics, Accounting, and Financial Technology where the conference aims at exploring topics such as, but not limited to:

- Blockchain Technology & Decentralized Finance.
- Smart contracts; Digital Currencies; Cryptocurrencies; Central Banks Digital Currency (CBDC).
- Banks and the growth of FinTech; Regulatory issues and Fintech.
- Initial Public Offerings (IPOs); Initial Coin Offerings (ICOs); Crowdfunding; Peer-to-Peer lending; Decentralized Autonomous Organization (DAO).
- FinTech and its impact on Interventional Trade, Financial Inclusivity, and Social Mobility.
- Cryptocurrencies, Asset Pricing, & Investment Portfolios.
- Accounting and Blockchain.
- Banking; Corporate Finance; Behavioral Finance, Corporate Governance.
- Financial Accounting; Corporate Social Responsibility; Management Accounting.
