19 Course Description:

As stated in the approved study plan.

As stated in the approved study plan.

The course is meant to provide a historical, technical and practical framework for students of both MIS and public administration to better realize the chances, challenges, and limitations associated with e-government and the use of technology in public administration. The course mainly focusses on the concept and applications of e-government, and will cover related managerial, administrative, technological and major policy issues in this context, plus a discussion of e-government in Jordan. Furthermore, the course will provide an overview of governmental web design and creation, and case study examples of different e-government applications around the world. Classes will be held in lecture and discussion format.

20 Course aims and outcomes:

A- Aims:

- 1. to have students understand the general principles of e-government and its applications
- 2. to have students realize challenges, and limitations associated with e-government and the use of technology in public administration.
- 3. to have the students understand the overall technologies used for the development of egovernment
- 4. to give the student a practical experience on how to develop e- government best practices and strategies

B- Students Learning Outcomes (SLOs):

Upon successful completion of this course, students will be able to:

SLOs of the course	SLO (1) Knowledge and Understanding	SLO (2) Intellectual Analytical and Cognitive Skills	SLO (3) Subject- Specific Skills	SLO (4) Transferable Key Skills
1	To understand the principles of e-government	To Design a model for implementing egovernment.	To develop an e- government implementation plan	To Display a compressive approach to egovernment development and statues
2	To familiarize student with the main technologies of e-government systems	To Verify and validate best egovernment implementation models	To Solve some challenges of using and implementing egovernment	To Design and e- government development plan and change strategy

22 Evaluation Methods:

Opportunities to demonstrate achievement of the SLOs are provided through the following assessment methods and requirements:

Evaluation Activity	Mark	Topic(s)	SLOs	Period (Week)	Platform
Midterms	30	Topics 1- 6		Week 9	Face to face
Short Quiz	15	Different		Week 1-14	JUEXAMS
Projects/Case Studies		All practical			
/ Assignments	5	material		Week 12	JUEXAMS
Final	50	All material		Final Week	Face to face

23 Course Requirements

(e.g: students should have a computer, internet connection, webcam, account on a specific software/platform...etc):

The courses require students to have a computer or smartphone and internet connection.

24 Course Policies:

- A- Attendance policies: Based on University Bylaws
- B- Absences from exams and submitting assignments on time: Based on University Bylaws
- C- Health and safety procedures: Based on University Bylaws
- D- Honesty policy regarding cheating, plagiarism, misbehavior: Based on University Bylaws
- E- Grading policy: Based on University Bylaws
- F- Available university services that support achievement in the course: NA
